**Subject:** Informal conference

Vikie:

This letter is too verify our conversation regarding the Informal Conference regarding the Kinny Coal Mine Application for a proposed coal mine to be located in the town of Schofield and Carbon County. Please be advised that CWA does not object to the date of September 30 for holding the Conference even though this is beyond the 30 day time line from the date we filed our request for the conference. We also appreciate the State's willingness to allow our membership who are located in the Town of Schofield to attend the Conference. Thank you.
